

Steps :

Download DirectX SDK from the link given in the description.

<https://www.microsoft.com/en-in/downl...>

Open control panel:

If you have Windows 64 bit then uninstall these 2 files first.(Since mine is 64bit..)

- ▶ Microsoft Visual C++ 2010 x64 Redistributable
- ▶ Microsoft Visual C++ 2010 x86 Redistributable

If you have Windows 32 bit then uninstall this file only.

- ▶ Microsoft Visual C++ 2010 x86 Redistributable

If you dont Follow the above steps you will get an "ERROR NO:S103"

Install DirectX SDK wait till it gets installed.

How to check whether it is installed or not ?

Go to Local Disk C:

Windows folder.

Microsoft.Net

DirectX Mangaged code....

If the above folder is present then you have successfully installed

DirectX SDK :)
